

Mandisa Gaba gained exposure to the world of work when she participated in our job-shadow day whilst completing Grade 12 at The Tersia King Learning Academy in Tembisa in 2009. She received mentoring support from our Big Sister Network when she started a small business after high school. She earned the third-place position in the 2013 University of Johannesburg / Raymond Ackerman Academy Entrepreneurship Programme and received R30,000.00 seed funding for her business idea.

Mandisa was the best student overall and the best student in Accounting, Business Communications, Marketing and Operations Management. She also received a Samsung Galaxy S3 phone from South Africa's entrepreneurial legend, Mr. Raymond Ackerman himself, at the graduation ceremony!
