

My name is Jessica Brown and 18twenty8 funded my final year BCom Accounting degree at UCT in 2020. I cannot stress enough how much this financial assistance has aided me. I was finally able to put all my energy into completing my degree, without an impending feeling of concern about my fees.

Seeking assistance for my UCT fees was difficult. I value balance and ensuring that I have my academics, social life, health and extra activities in check. This meant that making promises to fulfil contractual obligations to receive financial support was challenging.

Thank you for also funding my BCom Honours in Tax Technical and Compliance at UCT for 2021. Myself and my family are truly thankful for this opportunity. The funding from you, has made me trust in my values of perseverance. I am excited to keep working hard, pushing my boundaries of knowledge and helping others around me achieve too.
