TO WHOM IT MAY CONCERN

This is to certify that Miss Refiloe Seseane conducted motivational sessions with our Grade 12 learners. Her sessions were conducted over 1hr per session per class for 6 classes.

Her main focus was to encourage learners to study further to find relevance in the world of work.

The learners' responses were quite engaging and information seeking questions were asked .

She had to get all the information (newspaper advertisement) about bursaries and give them to learners, but she also encouraged them to go through papers for more information.

Please support her in whatever venture she is undertaking as a student ,because she can reach out to the youth of South Africa.

Yours faithfully

N.F.A MGIJIMA
